# OVER THE WALL CHILDREN'S CHARITY

Over The Wall is a UK children's charity that helps children, young people and their families, reach beyond the boundaries of their health challenges to discover a world of mischief, magic and new possibilities.

We do this by providing **free-of-charge**, transformative activity camps throughout the UK and online. We create an environment where children and young people thrive, not just survive. Over The Wall provides a safe environment for children and young people to build confidence and self-esteem, whilst first-class medical care ensures our unique ability to cater for more than 130 different conditions. We aim to empower children with health challenges to become the hero of their own story.

## Residential Camp

Our residential activity camps are an opportunity for children, young people and families to get away from home and the day-to-day pressures of life. We offer a medically and physically safe environment that allows young people affected by health challenges to step outside of their comfort zones, establish friendships and build their confidence through meaningful and exciting activities.

## Camp in the Cloud

Camp in the Cloud is a free, inclusive and engaging camp-at-home activity programme where campers and their families can experience the magic of an Over The Wall camp from home.

## Camp 365

Camp 365 offers a diverse range of fun online activities, live events and workshops that are available 365 days a year.
